FOR IMMEDIATE RELEASE

TME announces the SmartSmoker PRO™ Simple Smoke Pump Kit

Riverview, Florida. – February 22, 2011 -

Today, Tejera Microsystems Engineering, Inc. (TME), a leading innovator and manufacturer of RC accessories, announced the release of their new SmartSmoker PRO™ Simple Smoke Pump Kit. (model SSP-SSP).

For years TME has been the leader in easy to install Smoke Systems used by top TOC and Masters pilots whose names read like a "who's who" of RC aerobatic champions. TME actually created the first integrated pump pre wired with an electronics controller making the first ARS "Almost Ready to Smoke" system on the market. They have kept ahead of their imitators by making the best and most popular smoke system even better over the years.

The new SmartSmoker PRO™ kit is based on its predecessor line of Simple Smoke Pumps. This is a product line known for being reliable, easy to install, smoke systems that don't require pressure tapping, complex plumbing, mechanical valves or servos. For the new SmartSmoker PRO™, TME has kept the transmitter adjustable rates and Smart Prime™ features just like the original SmartSmoker, but now users can select the power source of the oil pump circuitry. It also has a new status LED to indicate SmartPrime™ and max flow for easy setup. As always 4 ft of clear tubing, a length of black heat resistant tubing, a T valve and a special high volume check valve are included with the pump.

Users can now choose between powering the pump from a small external separate "smoke only" battery pack, like previous versions, or choose to draw power from the receiver connector when used in GIANT SCALE airplanes with power distribution systems. This makes it specially suited for systems that already have large separate batteries for receivers and servo connections.

TME's part number for the Xtrema SmartSmoker PRO™ Simple Smoke Pump is model SSP-SSP. It will retail for \$129.99 and be available in fine Hobby Shops nationwide. They may also be ordered directly on their web site www.TMEnet.com

About Tejera Microsystems Engineering, Inc.

TME has been a leader and innovator in the RC market since 1990 designing and bringing to the market popular American made products such as the Guardian Angel, Auto-trickle Adapter, ChargeMinder, SmartSmoker Simple Smoke pump and the Xtrema line of Lithium chargers and balancers.
